

Chetan Deokar

Graduation Year: 2005

Experience: 10 Years

Organization with Designation: Lead Research Engineer with
Siemens Corporate Research and Technology in Bangalore

Chetan Deokar Says:

It gives me satisfaction to be associated with KKWIEER, an institute which is a combination of professionalism and focus on transforming students into engineering professionals. The fact that I can reach out to our professors even today speaks volume of the relationship students enjoyed. I offer my gratitude to Dr. D.M. Chandwadkar for his continuous guidance during my teaching practice and even today. I am presently working as Lead Research Engineer with Siemens Corporate Research and Technology in Bangalore and leading a team comprising of Analog Electronics Engineers and Embedded Hardware & Software Engineers.
