Event type:-Guest Lecture</p> <p>5. Event Title:- Indowordnet and Multilingual Resource Conscious Word Sense Disambiguation</p> <p>6. Speakers at the Event:- Prof. Dr. Pushpak Bhattacharya, IIT Powai Mumbai</p> <p>India is a multilingual country where machine translation and cross lingual search are highly relevant problems. These problems require large resources- like wordnets and lexicons- of high quality and coverage. Wordnets are lexical structures composed of synsets and semantic relations. They are linked by semantic relations. IndoWordnet is a linked structure of wordnets of major Indian languages These wordnets have been created by following the expansion approach from Hindi wordnet which was made available free for research in 2006. Since then a number of Indian languages have been creating their wordnets said Prof. Dr. Pushpak Bhattacharya, IIT Powai Mumbai in his invited talk at K K Wagh Institute of Engineering Education & Research (KKWIEER), Nashik as a part of the very first activity of the year 2012-2013 of CSI Student branch. He provided introduction to IndoWordnet and uncovered important considerations and benefits of IndoWordnet. He also presented the basic methodology of and challenges involved.</p> <p>Mr. Avinash Shirode, Chairman of CSI Nashik felicitated Prof. Bhattacharya and extended his best wishes to CSI Student branch at KKWIEER. Prof. Dr. Shirish Sane presented the highlights of the College and also the CSI student branch. Ms. Neha Sharma introduced the guest and Ms. Rutuja Jadhav anchored the event.</p> <p>Mr. Anand Kolapkar SBC, CSI Student Branch, KKWIEER, Nashik</p>
