

Teach Power electronics with low power & high performance TI C2000 microcontrollers

MoU is signed between Savitribai Phule Pune University and Texas Instruments, K. K. Wagh Institute of Engineering Education and Research, Nasik .

TI India University organized Faculty Development Program on “Teach Power electronics with low power & high performance TI C2000 microcontrollers” from 27th to 29th December 2016.

Faculty members from different engineering colleges from Pune university successfully completed this workshop.
